Dear Sir or Madame:

Re: Ground Water Application No. G 2-28811

We acknowledge receipt of your affidavit of publication of notice in connection with the above-numbered application.

The water codes require that no action be taken toward issuance of a permit earlier than thirty (30) days after the last date of publication. This period of time is allowed for filing any protests or objections.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,

Sheri Fox

Dear Mr. Sinclair:

Enclosed are the additional applications and supplemental report by GeoEngineers which we briefly discussed by phone last week. Also as mentioned, Briggs Nursery is wanting to pipe together their irrigation lines, whereby the water from the various wells could be used to irrigate any portion of their property. Once you have reviewed the enclosed materials, please feel free to contact myself or Chuck Lindsay of GeoEngineers with any questions. Additionally, we would be happy to meet with you to talk about this in greater detail.

Very truly yours,

Dear Mr. Mackie:

Re: Ground Water Application No. G 2-28811

Your application for the appropriation of water has been assigned the above referenced number. Please refer to this number in future correspondence.

Enclosed is a notice of your application which must be published once a week for two consecutive weeks in a qualified legal newspaper of general circulation in the County or Counties in which the storage, diversion, and use is to be made and in other newspapers as directed. A list of these newspapers in your county is enclosed.

The applicant is responsible for the payment of the publication. Please read the notice carefully to make sure it is correct. Should you find an error, please return the notice to our office for correction.

You should mail or deliver the enclosed notice to a newspaper regarding publication as soon as possible. When you receive the affidavit of publication from the newspaper, please forward it to this office promptly. Further processing of the application will not be made until the affidavit is returned.

A site investigation will be made by this office before we issue a permit decision. In light of our water right backlog, we estimate it will be about 18 months after receipt of your application before we are able to conduct the site investigation.

Sincerely,
